

Apple Coleslaw

Ingredients

For the dressing:

- 1 tbsp apple cider vinegar
- ¼ cup mayo
- Salt
- ¼ cup honey
- Ground black pepper
- ½ cup plain Greek yogurt (or sour cream)

For the salad:

- ½ pkg slaw mix
- ¼ cup sliced almonds
- ¼ cup crumbled feta cheese
- ¼ cup chopped green onions
- ¼ cup dried cranberries
- 1 large gala apples (sliced thin)

Step 1: Prepare the Dressing

In a mixing bowl, whisk together the Greek yogurt, mayonnaise, honey, and apple cider vinegar until the mixture is smooth.

Season the dressing with salt and pepper to taste, adjusting the seasoning to suit your preference.

Step 2: Combine the Salad Ingredients

In a large bowl, combine the cabbage, carrots, apples, green onions, almonds, cranberries, and cheese (if using).

Toss these ingredients together to ensure an even distribution throughout the salad.

Step 3: Dress the Salad

Pour the prepared dressing over the cabbage mixture in the large bowl.

Toss everything together gently but thoroughly to ensure the salad is evenly coated with the dressing.

Step 4: Serve and Enjoy

For the best flavor and texture, serve the salad within a few hours of preparing it.

This will ensure that the ingredients retain their freshness and crunch.

Enjoy your delicious and refreshing salad!

Storage Instructions

Keep Fresh: This coleslaw apple salad stays crisp and fresh in an airtight container in the fridge for up to 3 days. The yogurt-based dressing helps prevent the ingredients from getting too soggy, but for the best crunch and texture, try to enjoy it within the first two days.

Make Ahead: Want to prep this ahead? Mix the dressing ingredients separately and store them in a jar. Combine all the dry ingredients except the almonds in another container. When you're ready to serve, just toss everything together! This way, the almonds stay crunchy and the apples won't brown.

Serving Tip: If you're pulling this salad out of the fridge after storing, give it a good toss before serving – the dressing tends to settle at the bottom. You might want to add a splash of apple cider vinegar to wake up the flavors, and maybe an extra sprinkle of almonds for added crunch.
