Ingredients

- 2 lbs lean ground beef 92%
- 1 tbsp extra virgin olive oil
- 2 lbs diced butternut squash fresh, not frozen (I love to buy this already peeled and chopped when available)
- 20 oz frozen vegetable seasoning blend (diced onion, celery, pepper, and parsley blend) 2 (10 oz) packages
- 28 oz can fire-roasted crushed tomatoes do not drain
- 15 oz can tomato sauce
- 15 oz can black beans drained and rinsed
- 15 oz can red kidney beans drained and rinsed
- 15 oz can low-sodium northern beans drained and rinsed
- 15 oz can low-sodium cannellini beans drained and rinsed
- 3 tbsp chili powder
- 4 tsp cumin
- 4 garlic cloves minced
- salt and pepper to taste

Instructions

1. Heat a large skillet over medium heat and add 1 tbsp olive oil
2. Add beef, frozen vegetable blend and garlic to the pan
3. Cook until beef is cooked through (about 10 minutes), drain, and pour the mixture into the slow cooker

4. Add all other ingredients and stir
5. Cook 4 hours on high or 8 hours on low, until butternut squash is tender.

Notes

- **Prepping the squash** - Cutting butternut squash isn't exactly simple, so I usually grab them pre-chopped from the store. However, if you want to take on the challenge, make sure you have a very sharp knife and check out this resource on cutting and peeling butternut squash.
- **Add cocoa powder** - This may seem strange, but a tablespoon of cocoa brightens up the other ingredients and makes the flavors more vibrant.
