Ingredients

Donuts

- 125 grams all purpose flour
- 25 grams cocoa powder
- ½ teaspoon baking powder
- ½ teaspoon baking soda
- ½ teaspoon kosher salt
- 56 grams unsalted butter melted and cooled
- 106 grams light brown sugar
- 113 ml buttermilk room temperature
- 1 egg room temperature
- 1 teaspoon vanilla extract
- ¼ teaspoon nutmeg optional

Vanilla Glaze

- 125 grams confectioners' sugar
- 2 tablespoon milk
- 1 teaspoon vanilla extract
- pinch salt

Instructions

Donuts

1. Preheat oven to 350°F/175°C. Grease a donut pan with butter or baking spray. If you haven't already, melt your butter and then let it cool - you don't want to add hot butter to the batter!
56 grams unsalted butter
2. Whisk together the flour, brown sugar, cocoa powder, nutmeg, baking powder, baking

soda, and salt in a large bowl. Combine buttermilk, egg, melted butter and vanilla extract. 125 grams all purpose flour, 25 grams cocoa powder, ½ teaspoon baking powder, ½ teaspoon baking soda, ½ teaspoon kosher salt, 56 grams unsalted butter, 106 grams light brown sugar, 113 ml buttermilk, 1 egg, ¼ teaspoon nutmeg, 1 teaspoon vanilla extract

3. Pour buttermilk mixture into dry mixture and fold in until all incorporated. Make sure there are no flour pockets.
4. Pipe the batter into the cavities, filling each ¾ of the way. Bake for 11-13 minutes, until golden brown and springy to the touch. After 5 minutes take out each donut and let cool on a wire rack, before pouring the next batch in. I like to re-grease the pan before I refill it.

Vanilla Glaze

1. Combine all ingredients together in a medium bowl until completely smooth. Dip each cooled doughnut in and let dry on a cooling rack above a paper towel.
125 grams confectioners' sugar, 2 tablespoon milk, 1 teaspoon vanilla extract, pinch salt

Notes

My recipes have been developed and tested in metric grams. I highly recommend using a weighing scale and measuring out your ingredients the metric way. **I have provided a conversion to US cups but please note that I haven't tested the recipe with this method.**

Nutmeg: I've had a few comments about adding nutmeg, feel free to leave it out or add just ⅛ teaspoon if you aren't a huge nutmeg fan!

Salt: If you don't have kosher salt, halve the amount of salt called for in the recipe. 1 teaspoon kosher salt = ½ teaspoon fine salt.

Buttermilk: No buttermilk on hand? You can substitute it for sour cream.

Storage: Keep the donuts in an airtight container and keep in the fridge for up to 3 days. You can freeze the donuts for up to 3 months, let them defrost overnight in the fridge before eating.
